May, 2010

FARNELL PACKAGING ACHIEVES GOLD SEAL HACCP AUDIT RATING

Farnell Packaging Limited achieved GOLD SEAL status in its HACCP/PACsecure Compliance Audit 2010.

This is the highest rating a facility can score, which speaks volumes to the firm's commitment to exceeding customer expectations of vendor food safety best practises.

The audit is conducted annually to verify that all components of a Hazard Analysis and Critical Control Point (HACCP/PACsecure) program(s) are in place, that components are functioning; monitoring activities are being performed; and required verification steps and record keeping requirements are up to date and proven effective.

The standards applied to each auditing procedure are consistent with the requirements of the Canadian Food Inspection Agency, Health Canada, and AgriFoods Canada; as well as the Packaging Association of Canada's PACsecure Program, the CODEX Alimentarius Commission of the World Trade Organization, and standards for HACCP Program Compliance.

GOLD SEAL HACCP/PACsecure Audit Rating one more reason to make Farnell Packaging Limited your flexible packaging supplier of choice.
